

## APPENDIX A: Primary Target Industries for the COVID-19 NEP

Appendix A provides lists of NAICS codes in general industry from the public COVID-19 Enforcement Data (*e.g.*, complaints, FAT/CAT, referrals, inspections, COVID-19-related violations and HALs) where OSHA data shows the highest amount of workers expected to perform tasks associated with exposure to SARS-CoV-2. Tables 1 and 2 in this appendix comprise the NAICS codes for top healthcare and non-healthcare industries, respectively, with OSHA enforcement activities related to COVID-19 over the past year.

**NOTE:** Employee exposures to COVID-19-related hazards may occur in industries not listed in this Appendix. Similarly, it should not be assumed that employee exposure to COVID-19 occurs in all establishments within the industries listed in the tables below.

For certain industries not available using ListGen (*e.g.*, NAICS 621111, 621210, 621610, 722511, 722513, and 922140), alternative sources may be utilized (*e.g.*, Reference USA).
